VJTI Mumbai: Student Clubs & Committees Guide

VJTI's club culture is one of the most robust in India, offering students a chance to work on large-scale engineering projects and professional development.

1. VJTI Racing (Automobile Engineering)

VJTI Racing is the official SAE collegiate club. It focuses on designing and manufacturing high-performance vehicles from scratch.

- **Teams:**
    - **Team Motorbreath:** Focuses on building All-Terrain Vehicles (ATV) for the **SAE BAJA** competition.
    - **Team Forza VJTI:** Focuses on Electric Vehicles (EV) and Go-Karts for competitions like **ISIE IKR**.
- **Recruitment Info:** Recruitment usually happens in the **first month of the academic year**. It typically involves:
    - **Aptitude Test:** Basics of physics, mechanics, and logic.
    - **Personal Interview:** Testing passion, technical curiosity, and commitment.
    - **Membership Fee:** A nominal registration/club fee is often required upon selection (approx. ₹500).

2. Aero VJTI (Aerospace & Aeromodelling)

Aero VJTI is the premier aeromodelling club where students design, build, and fly Remote Controlled (RC) aircraft.

- **Activities:** Participation in international competitions like **AIAA Design/Build/Fly (USA)** and **SAE Aero Design**.
- **Events:** Hosts the famous "Glider Workshop" for freshmen to teach the basics of aerodynamics.
- **Recruitment:** Opens shortly after the orientation program. Freshmen are selected based on their interest in CAD software, electronics, and manual fabrication.

3. SRA (Society of Robotics & Automation)

SRA is the technical heart of VJTI for students interested in Robotics, AI, and Embedded Systems.

- **Focus Areas:** Machine Vision, Automation, and Autonomous Bots.

- **Key Projects:** Development of humanoid bots, self-balancing bots, and swarm robotics.
- **Recruitment:** SRA conducts a rigorous selection process including a **technical test** (covering electronics and coding) followed by a **hands-on task** or interview. They also run a mentorship program for selected juniors.

4. COC (Community of Coders)

COC is the official coding club of VJTI, dedicated to fostering a competitive programming and software development culture.

- **Focus:** Competitive Programming (CP), Web/App Development, Open Source, and Cybersecurity.
- **Activities:** Regular coding contests (Crack-the-Code), Hackathons, and workshops on trending technologies like Blockchain and AI.
- **Recruitment:** Students are usually recruited into the "Core Committee" based on their performance in club-hosted coding challenges and their technical portfolio (GitHub).

5. E-Cell (Entrepreneurship Cell)

E-Cell VJTI is a non-profit organization that aims to foster the spirit of entrepreneurship among students.

- **Activities:**
    - **Startup Networking:** Connecting students with mentors and investors.
    - **Competitions:** Business Plan competitions and "IPL Auction" simulations.
    - **Flagship Event:** The **E-Summit**, featuring talks from successful founders and CEOs.
- **Recruitment:** They look for students with strong managerial skills, marketing acumen, and a "startup" mindset. The process involves group discussions and case-study rounds.

Summary Table of Club Recruitment

Club	Category	Primary Skill Required	Typical Recruitment Month
VJTI Racing	Technical	Mechanics / Fabrication	August - September
SRA	Technical	Robotics / Embedded C	September

Club	Category	Primary Skill Required	Typical Recruitment Month
Aero VJTI	Technical	Aerodynamics / CAD	August
COC	Technical	Data Structures & Algorithms	Ongoing / September
E-Cell	Managerial	Leadership / Marketing	August - September
